

SIRAAJ
GAS LTD

Safe and Reliable Energy Solutions

COMPANY PROFILE

Kobac Road, Sunrise Apartments, Hodan District, Mogadishu, Somalia.

Safe and Reliable Energy Solutions

OUR BACKGROUND

Siraaj Gas Limited has embarked on a transformative journey since its inception, redefining Somalia's energy landscape by pioneering the use of LPG (liquefied petroleum gas) as a sustainable alternative to traditional charcoal. Our history is marked by significant milestones that reflect our commitment to addressing climate change and providing renewable energy solutions.

Founded with the vision of addressing the environmental and health challenges posed by charcoal use in Somalia, our company started as a small-scale distributor of LPG gas in Mogadishu. Recognizing the harmful effects of deforestation and indoor air pollution caused by charcoal burning, we saw an opportunity to introduce a cleaner and more sustainable energy source to the nation.

Over the years, Siraaj Gas Limited has steadily grown and expanded its operations. We have established a robust supply chain, secured reliable sources of LPG gas, and strategically positioned retail outlets and distribution networks throughout Somalia. Our journey has been marked by our unwavering commitment to safety, quality, and customer satisfaction, earning us the trust of residential, commercial, and industrial customers across the country.

OUR STRATEGIC FRAMEWORK

Siraaj Gas Limited's identity and purpose are defined by a compelling mission and vision that guide our journey with unwavering clarity.

OUR VISION

Our vision is to establish a resilient and enduring presence in the LPG gas industry, underpinned by an unwavering commitment to safety, sustainability, and customer satisfaction.

OUR MISSION

Our mission is both simple and profound: to become Somalia's foremost provider of safe and dependable LPG gas and gas cylinders.

Our Core Values

Siraaj Gas Limited proudly upholds a set of fundamental core values that underpin our identity and commitment to excellence.

These values serve as the bedrock of our company culture and operations, guiding our actions and decisions. Rooted in our unwavering dedication to safety, quality, customer-centricity, and sustainability, our core values define not only what we believe but also who we are.

They are the driving force behind our mission to provide the people of Somalia with safe, reliable, and environmentally responsible LPG gas solutions.

SAFETY

Safety is not just a priority at Siraaj Gas Limited; it's a fundamental value. We are unwavering in our commitment to the safety of our employees, customers, and the communities we serve.

QUALITY

The cornerstone of our business is quality. We are dedicated to delivering the highest quality LPG gas and gas cylinders to our customers.

CUSTOMER-CENTRIC

Customers lie at the heart of everything we do. Understanding their needs and exceeding their expectations is our commitment.

SUSTAINABILITY

Siraaj Gas Limited is dedicated to minimizing our environmental impact while contributing to the sustainable development of Somalia.

Customer-Centric Approach

WE WANT OUR CUSTOMERS TO SUCCEED

Responsive Customer Support: Our commitment to exceptional customer service starts with responsive customer support. We have a dedicated team that is readily available to assist our customers with their inquiries, concerns, and requests. Whether it's answering questions about our products or resolving issues, we aim to provide prompt and effective support.

Tailored Services: We understand that each customer is unique, with distinct requirements and preferences. To meet these varied needs, we offer tailored services that align with different customer segments, including residential, commercial, and industrial clients. Our goal is to provide customized solutions that cater to their specific energy demands.

Open and Transparent Communication: Effective communication is key to building trust and lasting relationships. We maintain open and transparent lines of communication with our customers, keeping them informed about our products, services, and any relevant updates. We actively seek and value their feedback to continually improve our offerings.

Quality Assurance: We adhere to stringent quality control measures to ensure that our products meet or exceed industry standards, providing our customers with safe and reliable energy solutions.

Business Operations

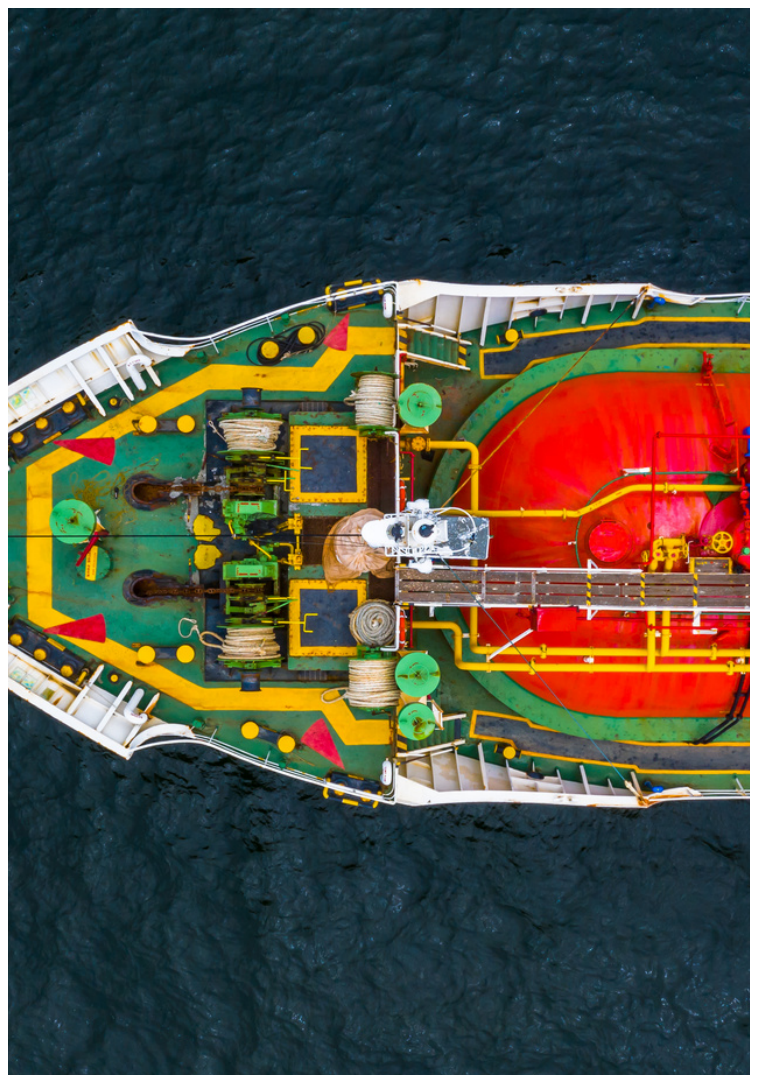

Siraaj Gas Limited stands as a pioneering force in Somalia's energy sector, specializing in the import, distribution, wholesale, and retail of LPG (liquefied petroleum gas) and gas cylinders. With a strong foothold in the market, we have successfully emerged as a trusted name in the industry, serving diverse sectors including residential, commercial, and industrial clients.

Our extensive experience and expertise enable us to meet the growing demand for clean and efficient energy solutions across the nation.

As an industry pioneer, Siraaj Gas Limited has carved a unique niche by providing safe and reliable LPG gas and gas cylinders. Our commitment to excellence extends to every facet of our operations, from sourcing the highest quality gas to ensuring its safe storage and efficient distribution.

We understand the critical role that LPG gas plays in daily life, and we take pride in being a dependable source of this essential resource for countless households and businesses in Somalia.

With a customer-centric approach, we prioritize not only the delivery of premium LPG gas but also the satisfaction of our valued clients. We recognize that our success is inextricably linked to the prosperity and contentment of our customers. By focusing on quality, safety, and sustainability, Siraaj Gas Limited continues to play a pivotal role in meeting Somalia's energy needs while fostering a brighter and greener future for all.

Bulk Import of LPG Gas

RIGOROUS QUALITY CONTROL MEASURES

Siraj Gas Limited has established itself as a leading force in Somalia's energy landscape through our strategic focus on the bulk import of LPG (liquefied petroleum gas). Our commitment to ensuring a reliable and consistent supply of LPG gas to meet the nation's growing energy demands is unwavering. We have forged strong partnerships with reputable international suppliers, enabling us to source high-quality LPG gas from around the world.

Our bulk import operations are underpinned by rigorous quality control measures, ensuring that the LPG gas we bring into Somalia meets or exceeds industry standards. We prioritize safety at every step of the importation process, from the loading and transportation of gas to its storage in our state-of-the-art facilities. This dedication to safety and quality is not only a core value but also a promise to our customers that they can rely on us for a consistent and secure supply of LPG gas.

Through our strategic bulk import activities, Siraj Gas Limited plays a pivotal role in enhancing energy accessibility for households, businesses, and industries in Mogadishu, Somalia.

Wholesale Distribution of LPG

RELIABLE & CONSISTENT SUPPLY

Siraaj Gas Limited's commitment to providing comprehensive energy solutions extends to our pivotal role in the wholesale distribution of LPG (liquefied petroleum gas) throughout Somalia. As a leading wholesaler in the industry, we play a crucial part in ensuring that this essential energy source is accessible to a wide range of businesses, retailers, and industrial clients across the nation.

Our wholesale distribution network is built on a foundation of reliability and efficiency. We maintain a well-organized supply chain, enabling us to deliver bulk quantities of LPG gas to our valued customers in a timely manner. Whether it's supporting industrial processes, commercial establishments, or local retailers, our wholesale distribution services are designed to meet the diverse needs of our clients.

Siraaj Gas Limited's commitment to safety and quality is unwavering in our wholesale distribution operations. We adhere to strict safety protocols during transportation, storage, and delivery, ensuring that our clients receive LPG gas that is not only abundant but also safe and of the highest quality. Our focus on sustainability also drives us to continually explore eco-friendly distribution practices, contributing to a cleaner and more sustainable energy future for Somalia.

Retail Sales of LPG

SAFETY IS OUR FOREMOST CONCERN

Siraaj Gas Limited is dedicated to ensuring that safe and reliable LPG (liquefied petroleum gas) is readily available to households in Mogadishu, Somalia through our retail sales operations. We recognize that LPG gas is an essential energy source for daily life, and we have strategically positioned our retail outlets for easy accessibility by individuals and families.

In our retail sales operations, safety is our foremost concern. Our retail outlets are equipped with state-of-the-art facilities and adhere to rigorous safety protocols to protect both our customers and our dedicated staff. Furthermore, we provide essential safety information and guidelines to our customers, empowering them to use LPG gas safely in their homes.

Quality is a non-negotiable aspect of our retail services. We take pride in offering LPG gas and gas cylinders that meet or exceed the highest industry standards. This commitment to quality ensures that our customers can rely on the efficiency and dependability of our products.

Our customer-centric approach extends to providing responsive and supportive customer services. We aim to create a positive and convenient experience for our customers, offering them the guidance and assistance they require.

Gas Cylinder Sales and Refilling

STRINGENT QUALITY STANDARDS

Gas Cylinder Sales:

Our retail outlets are equipped to offer a range of gas cylinders suitable for different applications, from domestic use to industrial needs. We understand that customers have diverse requirements, and we provide them with choices that align with their specific preferences and usage patterns. Our gas cylinders are built to meet stringent quality standards, ensuring durability and safety.

Gas Cylinder Refilling:

In addition to selling gas cylinders, we take pride in our gas cylinder refilling services. We emphasize the importance of sustainability and responsible resource management. When customers bring their empty cylinders to us for refilling, they not only save money but also contribute to reducing environmental waste.

Our skilled technicians handle the refilling process with utmost care and adhere to strict safety guidelines to ensure the integrity of the cylinders and the quality of the gas. Safety is at the forefront of our gas cylinder sales and refilling operations.

We educate our customers on the proper handling and storage of gas cylinders, reinforcing our commitment to their safety.

Our Market Presence

STRONG PARTNERSHIPS

Siraaj Gas Limited boasts a robust and extensive market presence that spans across the diverse landscape of Mogadishu, Somalia.

We have successfully positioned ourselves as a leading provider of LPG (liquefied petroleum gas) and related services, catering to a wide range of customers, including residential, commercial, and industrial sectors.

Our commitment to serving these distinct customer segments is rooted in our understanding of their unique energy needs.

We recognize the vital role LPG gas plays in the daily lives of residential customers, providing them with a clean, efficient, and accessible source of energy for cooking, heating, and more.

In the commercial sector, we have forged strong partnerships with businesses of all sizes, offering them reliable and cost-effective LPG solutions that enable their operations to run smoothly.

Our focus on quality and safety ensures that commercial establishments can trust us to meet their energy demands consistently.

Safety Standards

INDUSTRY BEST PRACTICES

Safety is not just a priority; it's a fundamental aspect of our core values.

Rigorous Training: Our employees undergo comprehensive safety training to equip them with the knowledge and skills necessary to handle LPG gas safely. This training covers proper handling techniques, emergency response procedures, and the use of safety equipment.

Safe Handling Practices: We adhere to industry best practices for the safe handling of LPG gas. This includes using specialized equipment, such as safety valves and pressure regulators, to prevent leaks and accidents.

State-of-the-Art Storage Facilities: Our storage facilities are equipped with advanced safety features, including temperature and pressure monitoring systems, emergency shut-off valves, and fire suppression systems. These measures ensure the safe storage of LPG gas.

Strict Transportation Protocols: During transportation, we implement stringent safety protocols, including the use of specially designed vehicles and containers that are compliant with safety regulations. Our drivers are trained to handle LPG gas securely during transit.

Quality Assurance

HIGHEST STANDARDS OF LPG GAS QUALITY

Maintaining the highest standards of LPG gas quality is at the core of our operations. We are dedicated to delivering products that meet or exceed industry benchmarks, ensuring the satisfaction and safety of our customers.

Stringent Quality Control: Our quality control processes are rigorous and meticulous. We conduct routine inspections and testing of our LPG gas to verify its purity, composition, and compliance with international standards.

Supplier Assessment: We work closely with reputable suppliers and conduct thorough assessments of their production and quality control processes to ensure that the LPG gas we source meets our stringent quality criteria.

Product Traceability: We maintain comprehensive records of each batch of LPG gas, allowing us to trace its origin and monitor its quality throughout the supply chain. This ensures full transparency and accountability.

Continuous Improvement: Quality assurance is an ongoing commitment. We continuously review and enhance our quality control processes to stay ahead of industry developments and maintain the highest levels of quality and safety.

Sustainability Initiatives

DEEPLY COMMITTED TO SUSTAINABILITY

Responsible Sourcing: Prioritizing ethical and environmentally responsible sourcing practices, we collaborate with suppliers who share our commitment to sustainable and ethical standards. Our focus on responsible sourcing ensures that the LPG gas we import is derived from reputable and sustainable sources, minimizing environmental impact throughout the supply chain.

Carbon Footprint Reduction: To reduce our carbon footprint, we optimize transportation routes to minimize emissions, employ energy-efficient technologies within our facilities, and actively promote recycling and waste reduction. We continuously explore cleaner and more sustainable alternatives to decrease the environmental footprint of our operations.

Community Engagement: Beyond environmental efforts, we engage actively with local communities in Somalia, supporting their development and well-being. Our initiatives include education and awareness campaigns on safe LPG gas usage, job creation, and community-based projects aimed at fostering sustainable living.

Environmental Stewardship: Collaborating with environmental organizations and government agencies, we support initiatives addressing environmental challenges and promoting conservation efforts.

Certifications and Compliance

STRONG COMMITMENT TO REGULATORY COMPLIANCE

License for LPG Import and Distribution: We possess the requisite licenses and permits for the import, distribution, and sale of LPG gas in Somalia. These licenses are issued by the relevant government authorities, ensuring that our operations meet the legal and safety standards required in the industry.

Quality Control Certifications: Our commitment to delivering high-quality LPG gas is underscored by our adherence to industry-specific quality control standards. We maintain certifications and compliance with international quality standards to guarantee the purity, safety, and reliability of our products.

Safety Regulations: Safety is a paramount concern, and we strictly adhere to safety regulations set forth by local and international authorities. Our operations, from storage to distribution, are in full compliance with safety guidelines to protect our employees, customers, and the environment.

Environmental Compliance: We actively engage in environmental stewardship and are compliant with environmental regulations and standards. Our practices prioritize responsible sourcing, waste reduction, and emissions control to minimize our impact on the environment.

Community Engagement

STRONG COMMITMENT TO REGULATORY COMPLIANCE

Education and Awareness: We conduct educational campaigns and awareness programs focused on safe LPG gas usage. These initiatives aim to educate individuals and households about the safe handling and efficient use of LPG gas, reducing the risk of accidents and promoting safer living environments.

Job Creation: We recognize the importance of employment in community development. By expanding our operations and distribution networks, we create employment opportunities for local residents, contributing to economic growth and prosperity.

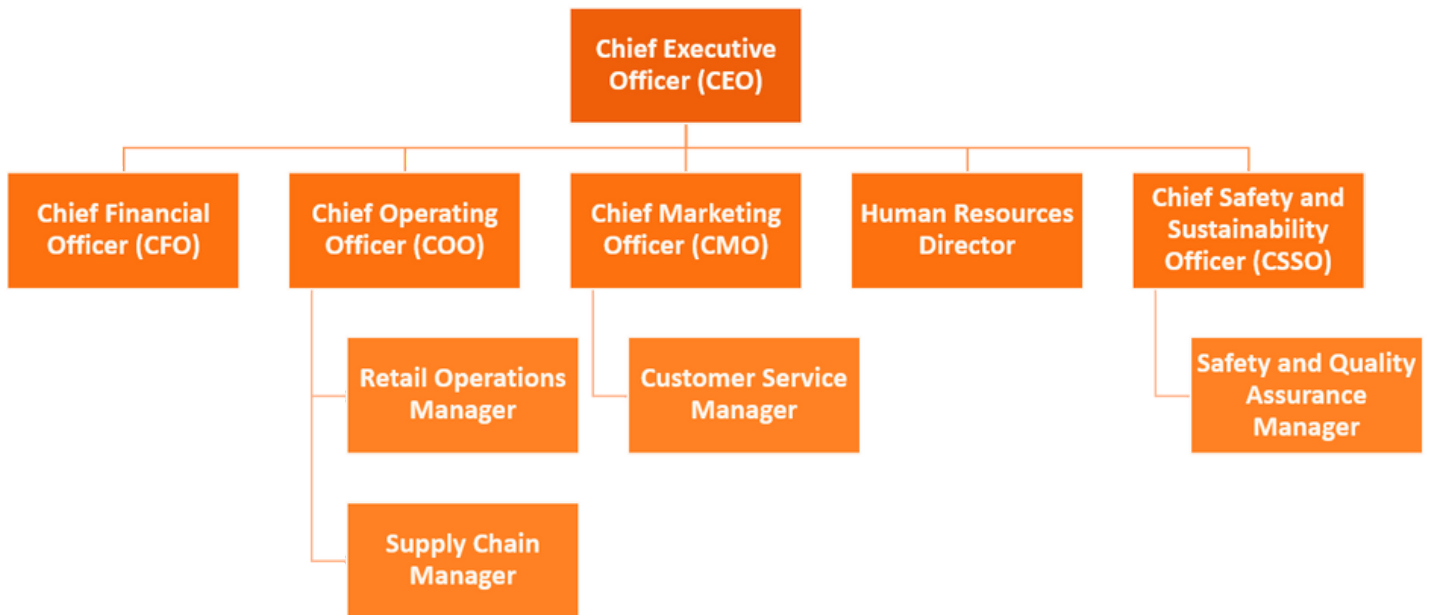

Community-Based Projects: Sirraaj Gas Limited sponsors and participates in community-based projects that address local needs and challenges. This includes initiatives related to healthcare, sanitation, and infrastructure development, which improve the overall quality of life for community members.

Safety Workshops: We organize safety workshops and training sessions for local communities to educate them about the safe use of LPG gas. These workshops empower individuals with the knowledge and skills to use LPG gas safely in their homes.
